

# New Armfield digital catalogue

## GSF9 online and offline

### INTERACTIVE CATALOGUE NOW AVAILABLE!

Armfield's latest catalogue, GSF9, is now available as an interactive \*online and \*offline catalogue, providing a natural and intuitive way to browse the entire Armfield product range.

**HELP US TO REDUCE ENVIRONMENTAL IMPACT**  
Using only the online or offline digital versions of this catalogue means less print and less CO<sub>2</sub>.

**view online:** [www.discoverarmfield.co.uk/gsf9](http://www.discoverarmfield.co.uk/gsf9)

or †scan the QR code with your iPhone or Android smartphone

### VERSION OVERVIEW

#### ONLINE VERSIONS

##### DESKTOP/LAPTOP COMPUTERS

If you are viewing via a Windows™ or Mac™ PC with Flash™ 10 or later plug-in in your browser you will experience the fully interactive page turning version.

If you don't have flash/shockwave installed you will be prompted to install it (recommended), or you can choose to download an interactive PDF version in Acrobat 8 format. Any PDF viewer that supports this format should work.

You can click through on the orange rounded corner URL links on either Flash or PDF version, this will open the relevant page/data sheet in your browser.

##### ‡MOBILE DEVICES

Recommend WiFi share points for access.

If you go to [www.discoverarmfield.co.uk/gsf9](http://www.discoverarmfield.co.uk/gsf9) via your mobile device or †scan the QR you will see:

on Apple™ iOS devices - Including iPhone™, iPad™, iPod™ (latest generation).

An interactive eBook, the 'page-curl' is replaced with page flick or swipe to move through the pages.

on Android - Software states compatibility and you should have the same experience as for Apple devices, but is untested on an actual Android device so this cannot be verified.

##### Other mobile devices:

No support as yet for Windows OS mobiles, Symbian (the OS behind Nokia) or BlackBerry™ handsets though it has been tested and works very well with the BlackBerry PlayBook™ (similar to the iPad).

It is hoped more support will be added for these devices soon.

For now, a fully interactive PDF is available as alternative content for many mobile devices that either do not have Flash or have a slow implementation of it (Flash is quite CPU intensive). Most handsets have at least Adobe Acrobat LE to view PDF files, but will need at least 14MB free memory to open the interactive PDF catalogue.

#### OFFLINE VERSIONS

For use on your desktop/laptop computer with or without an internet connection.

The offline app package is available upon request from Armfield UK. Simply e-mail [sales@armfield.co.uk](mailto:sales@armfield.co.uk) to request your offline copy.

The package contains:

- A flash based PC version (15.8MB) (XP or later)
- A flash based Mac version (22.4MB) (OSX 10.6 or later)
- A PDF only version (13.7MB) (Acrobat 8 or later)

Both Flash™ versions have Flashplayer™ integrated into the app so no additional plug-in or player is needed. INSTRUCTIONS: The entire folder should be downloaded to your hard drive. Never run from a USB drive, CD or DVD if it has been provided to you on these types of media. The original source files will be revised from time-to-time if errors/omissions are reported. You will be notified if you have registered your copy.

\*This project is currently at Beta stage, so please do report any issues, errors, omissions or broken links you find, via e-mail only please, to Jon Filer - [sales@armfield.co.uk](mailto:sales@armfield.co.uk)

### FEATURES

- BROWSE in a more natural and intuitive way the complete Armfield product range (Flash version).
- SHARE via email, Twitter, Facebook or even embed it into your own site (Flash version).
- ZOOM - Double click (double tap on touch screen devices) to zoom any page for more detail + multi-level zoom slider to zoom into the desired part of the publication and scroll around the page (Flash version).
- CLICK any of the orange rounded corner URL links on either Flash or PDF version, this will open the relevant page/data sheet in your browser.
- SEARCH - Full-text search facility
- DOWNLOAD - Fully interactive PDF download available from the bottom menu (Flash online version) Download the entire publication as a PDF or just the current page
- QUICK ACCESS to any section via the side tabs or use the Table of Contents (selectable from the bottom menu bar) (Flash version).
- CONTENTS - Always get back to the contents page with the contents links at the foot of each page.
- AUTO DISPLAY - Use the 'Start Slideshow' feature and you'll have a self-running display of our entire product portfolio.

We hope you enjoy the experience.

The online digital catalogue is available from:  
[www.discoverarmfield.co.uk/gsf9](http://www.discoverarmfield.co.uk/gsf9)

Further copies of this guide can be downloaded from:  
[www.discoverarmfield.co.uk/gsf9/guide.pdf](http://www.discoverarmfield.co.uk/gsf9/guide.pdf)

### REQUIREMENTS

PLATFORM: PC/Mac/‡Mobile devices  
(see VERSION OVERVIEW for compatibility)

BROWSER: Almost any browser with a flash/shockwave plug-in  
(support for Flash 10 or later recommended)

Note: You may need to adjust/disable your pop-up blocker and noscripts settings to allow the domain [www.discoverarmfield.co.uk](http://www.discoverarmfield.co.uk). Java Script is also required for the app to run correctly. If in doubt please check with your systems administrator first.

NO FLASH CAPABILITY? Not a problem, alternative content links are served for a fully interactive PDF version, a text only SEO version, plus option to install the Flash plug-in.

(Please check with your systems administrator first)  
(Recommend Broadband/WiFi connection due to file size)
